## ABOUT ME:

As a 3rd-year Computer Science student with a deep interest in web development, I have honed my skills in JavaScript and full-stack development using the MERN stack. I am eager to apply my knowledge in a dynamic internship environment where I can contribute meaningfully while gaining hands-on experience. With a strong work ethic and a passion for creating efficient, user-friendly web applications, I am ready to add value to your team and grow as a developer.

## PROJECTS

### 1. TODO Web App:

- Developed a full-stack TO-DO application using React for the frontend and Express.js for the backend.
- Integrated MongoDB to manage tasks and user data, ensuring efficient data storage and retrieval.
- Designed a clean and responsive UI with Tailwind CSS, enhancing user experience and accessibility.

### 2. Chat App :

- Currently developing a chat application inspired by Gmail's interface and functionality.
- Using React for the frontend, Express.js for the backend, and MongoDB for real-time messaging and data storage.
- Tailwind CSS is being implemented to create a sleek and modern UI.
